

**Regarding appointments for handing in visa- and residence applications at VFS Global.**

Due to the lack of internet, it is for now not possible to book appointments with VFS. If you already have an appointment with VFS Global, you will be contacted and offered to reschedule your appointment.

Regarding urgent appointments for biometrics in connection with residence permit applications, you may ask the Danish Immigration Services/Danish Agency for International Recruitment and Integration(SIRI) to have your case sent to an alternative Danish mission in the region.
